Grade Point Average/Class Rank

The Grade Point Average is computed by dividing the total amount of grade points by the total amount of grade points attempted. AHS switched from a 5.0 to a 4.0 grade scale at the start of the 2024-25 school year.

	A = 4.0	A- = 3.7
B+ = 3.3	B = 3.0	B- = 2.7
C+ = 2.3	C = 2.0	C- = 1.7
D+ = 1.3	D = 1.0	D- = .7
	F = 0.0	

All grades earned in classes offered at Annawan High School during the regular school year with the exception of Physical Education and Drivers Education, are used in computing a student's grade point average. We do not do class rank.

Weighted Grading System

Considerations for course weighting:

- Courses are advanced in sequence, such as Precalculus, Calculus, Forensic Chemistry, Advanced Biology, College Composition, Psychology, Spanish IV, etc.
- Dual Enrollment courses which are IAI articulated or considered as a transferable course.

In weighted courses letter grades from A through C- are increased by 1 unit. (Example: A- from 3.7 to 4.7) Weighted grades are used in computing honor roll.

AHS Standard Grading Scale

	A	96-100	A-	94-95	
B+	92-93	B	89-91	B-	87-88
C+	85-86	C	78-84	C-	76-77
D+	74-75	D	71-73	D-	70
	F	Below 70
